

# Zachary Fetters

Front-end Designer & Developer

## PROJECTS

Hyde · Sole Developer · Aug 2021 – Now

- Hyde is a **Jekyll** site & post management program for Windows, Mac, and Linux. Made with **Electron**.
- Currently in early development, alpha planned to launch by end-of-year 2021 or early 2022.

CryptoCam · Sole Developer · August 2021

- CryptoCam is a **Python** library that takes live camera input and generates cryptographic hashes using industry-standard hash algorithms.
- Made using Python, **OpenCV**, and Python's **hashlib**.
- Very customizable and completely **open-source**.

Personal Portfolio · Sole Developer, Designer · July 2019 – Now

- Designed my personal portfolio page using HTML, CSS, JS, and Jekyll. Hosted on GitHub Pages and **Netlify**.

## EXPERIENCE

EKU IT Geeks · Richmond, KY · Nov. 2020 – Sept. 2021

- *As tech team member:* Tasked with teaching the basics of Git & GitHub to my peers. Assisted in creating **Figma** and HTML/CSS prototype for a touchless, ID check-in system.
- *As desk worker:* Responsible for managing and creating check-in/check-out requests using our **ticketing software** for loaned equipment to the college's faculty and students.

## RECOMMENDATIONS

Jadon Calvert · EKU IT Geeks · Jan. 14, 2021

“Zach is a self-starter and his contributions to our team were invaluable.” – [See full reference here.](#)

Maya Mains · EKU IT Geeks · Mar. 22, 2020

“Zachary is extremely ease [sic] to train and isn't afraid jump in and help clients with their technology problems.” – [See full reference here.](#)

## SKILLS

### LANGUAGES

Javascript
